Breakfast

Breakfast 9am Tuesdays 2018

10-APR **Ruvs** NE Corner Jog & Lake Ida

Email Art if you plan to attend: wa8vsj@gmail.com

News and Updates

"Work World with WSJT-X" by Joe Taylor, K1JT

All you wanted to know about the development of weak signal digital communications with emphasis on the FT-8 explosion on the bands these past 8 months. His talk was just given about 2 weeks ago (March 24) at the MicroHams conference in Redmond, Washington so it's very current info. The link takes you directly to the start of his presentation at 4 hours into the conference. The talk lasts about 50 minutes and don't miss the Q&A at the end for some new updates coming. Don't miss this!
